

miSecure Messages

Set-Up Guide for Android Devices

Download the miSecureMessages App

- 1) Go to your Play Store app and search for “miSecureMessages”

- 2) Download the free miSecureMessages app.

Register the miSecureMessages App

- 1) Open the miSecureMessages app, and enter your License Key (*given to you by your miSecureMessages Provider*).

My License Key: _____

2) If you are an existing miSecureMessages user, tap "Login" and enter your username and password.

If you are a new user, tap "Create Account."

3) New Users – Register Your App

Enter your information:

Display Name: Enter your name as you wish for it to appear to other miSecureMessages users (e.g. John Smith).

Username: Create a username (or if you have a username given to you by your miSecureMessages provider, enter it here).

Password: Create a password (or if you have a password given to you by your miSecureMessages provider, enter it here).

The image shows a registration form for existing users. It has a dark background. At the top left is a smartphone icon with a message. To the right, it says "Existing users, login here". Below that are three input fields: "Display Name", "Username", and "Password". There is a checkbox labeled "Show typing" and a button at the bottom labeled "REGISTER NEW ACCOUNT".
